Stitches Needed

Chain Stitch

Knot one end and bring the needle through to the front of the felt. Partially re-insert the needle from front to back of the felt at the same point it came out. Bring the point back up about 1/8" away and wrap the thread under the point so the needle comes up through the loop. Pull the needle through and tighten the loop. Repeat as many times as you need to create the proper length chain.

Backstitch

This stitch creates a line of 1/8" stitches on the top

of the fabric that are equal in length with no spaces between. Knot one end and start from the back side up through to the front at position 1. Pass the needle down in position 2, up in 3, down in 4, up in 5 down in 6, and so on to make the stitch.

Blanket Stitch

To make a Blanket Stitch, thread a needle with the floss and knot one of the two ends of thread.

The starter stitch begins between the two layers of wool felt. The needle is inserted

between two layers, then down through the bottom layer and up over the tail.

Pull the thread tight which will set the knot between the layers.

Insert the needle down into the fabric, through both layers, and up inside the loop. Then, pull tight.

Repeat this along the edge of the fabric until you have completed the edging.

The stitching should be evenly spaced and have the loop along the seam between the two piece.

Instructions

The Jack-O-Lantern Mat Kit has pumpkins and stems. Refer to the box cover for layout.
