Stitches Needed

French Knot

Insert needle from the back side and wrap 1, 2, 3, 4 or 5 turns around the needle as shown. The more turns the bigger the knot. You can experiment on a scrap piece of fabric to see which size you like best.

Blanket Stitch

Thread the needle with floss and knot only one of the two ends.

The needle is inserted between two layers, then down through the bottom layer and up over the tail.

Pull the thread tight which will set the knot between the layers.

Insert the needle down into the fabric, through both layers, and up inside the loop. Then, pull tight.

Repeat this along the edge of the fabric until you have completed the edging.

The stitching should be evenly spaced and have the loop along the seam.

Chain Stitch

Insert needle from the back side and return to the back adjacent to the start.

Pull the thread until a small loop is formed. Bring the needle back up about 1/4" away, in the direction of the chain, going through the loop and pull tight. Return to the
